“ *Butch and Jerry,*

I'm missing your sweet Mom already. I wish I could pick-up the phone and hear her voice and laugh about the good old days. I will miss my luncheon dates with her especially our lunches at Bertucci's.

Being a fellow "LEO", I know your Mom was fiercely protective of her family and wanted only the best for you. She was very proud of her boys.

Take comfort in the fact that your Mom touched all who knew her.

I have lost a dear friend who's memory will be safely stored within my heart.

When I think of Judie, I will picture her standing outside the house of her dreams... the one with the white picket fence welcoming all to her home full of love.

The wonderful gifts of life are the people God has allowed us to love and be loved by

May God bless you with comforting love.

With my deepest condolences.
